IDENTIFIERS *Mississippi

ABSTRACT

Every institution of higher education in Mississippi was surveyed to determine the origins of students. The purpose of the study was to try to find the answer to the large increases in total enrollments reported by the state universities, the public junior colleges, and some of the private senior colleges after the opening of the 1975 fall semester. Total enrollment figures are given, along with a breakdown showing the home county for in-state students and the total number of out-of-state students for each institution. (JMF)

MISSISSIPPI POSTSECONDARY EDUCATION PLANNING BOARD

A SURVEY OF THE GEOGRAPHIC ORIGINS OF STUDENTS ATTENDING INSTITUTIONS OF HIGHER EDUCATION IN MISSISSIPPI FALL TERM, 1975-76

A study carried out by the Mississippi Postsecondary Education Planning Board and the State Building Commission as a follow-up to a 1974 survey. This study was partially funded by a grant from the U. S. Office of Education to the Postsecondary Education Planning Board, which is the "1202 Commission" for the State.

THE POSTSECONDARY EDUCATION PLANNING BOARD

Governor Cliff Finch, Chairman
Mr. James G. Chastain, AIA, Executive Director
Dr. Woodrow W. Clark, Director of Planning
1501 Sillers State Office Building
Jackson, Mississippi 39205

May, 1976

INTRODUCTION

During the school year of 1972-73, the Building Commission conducted a comprehensive study of college student origins under the support of the Higher Education Facilities Comprehensive Planning grant received from the U. S. Office of Education. The report of that survey was issued in May, 1973, and received wide attention throughout the state.

A considerable number of concerned people in institutions of higher learning in the state and people in state government expressed the need for an up-date to the 1972-73 survey, which was attempted on a less analytical approach with more emphasis on data displays, primarily because of staff time shortage and also because of the lack of supporting funds.

In this survey of 1975-76, every institution of higher education in the state responded. This was gratifying since comprehensive data were needed to fulfill the purpose of the study. This purpose was to try to find the answer to the large increases in total enrollments reported by the state universities, the public junior colleges, and some of the private senior colleges after the opening of the 1975 fall semester.

Care should be exercised in comparing data of this report with those of previous studies, primarily because of the impact on enrollments

by the centers, by the "other students" classification, and by the large increase in headcount graduate students.

It is anticipated that up-dates can be continued biennially in the future. Its wide reception attests to the use that is made of these data, and the study will be continued if funds can be found to support it.

E. R. Jobe
